

Overview

What is ML, Use Cases, Typical Procedure, Typical Team

Bot Analyst

Vision, Features, Progress, Competition, Road Map

How I wish to fit in

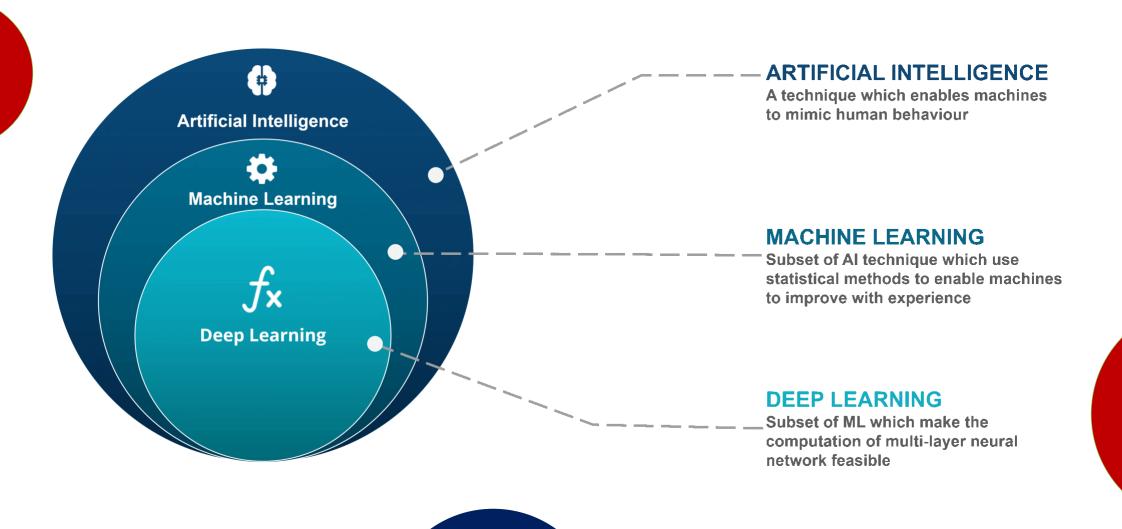

Web-scraping, Data Engineering, Portfolio Optimisation

What is ML in finance?

Typical Dev-Team

684361803.XI

Solution Architect

Big Data Architect

Big Data Engineer

Backend Developers

Front-end Developers

Data Scientist

Machine Learning Engineers

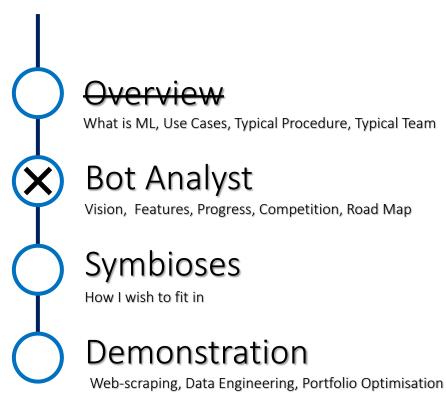

Business Intelligence

Our MISSION is to understand the stock market. Our VISION to provide

Our VISION to provide the latest accurate insights into how the market operates, as everyone has the right to finance their endeavors in a safe, secure and transparent environments

Al Driven

- Voice Recognition
- NLF
- Quant Driven

Search Engine

- Financial Statements
- News and trade journals
- SEC Filing
- Social Media Feeds
- Video feeds

Analyst

Open Source

 Services accessible form anywhere in the world

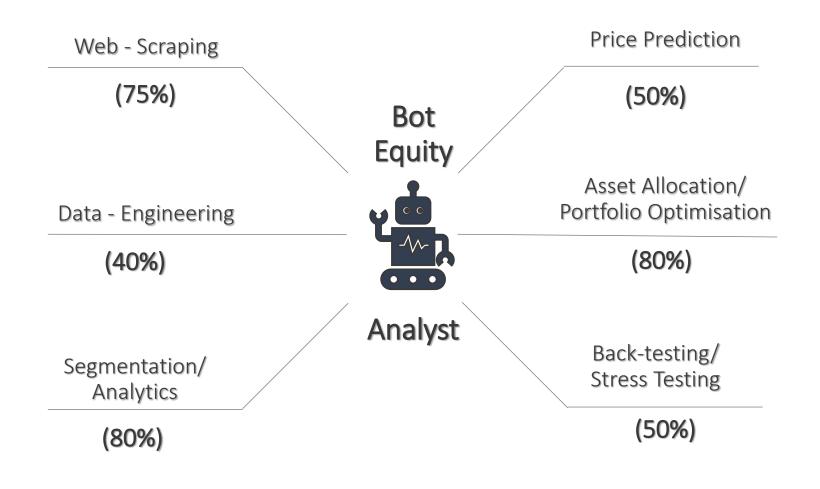

Transparency

- Transaction recorded on blockchain
- Smart Contract Enabled
